

Rupal Engineer

Rupal Engineer AIA, has created programming for youth and adults using design process and thinking, and applied lessons from her own successful architecture and design firm, *Design Plus*. Her education and research firm, *Indigo Moose* offers fun classes, events, and camps, with hands-on, project based learning for ages 8 to 80 years. Design thinking with a STEAM focus is a fun way for families and teachers to engage students of all ages, abilities and learning styles.
